

Wright Express Fuel Advisors – Managed Fuel Solutions

Achieve higher efficiencies and greater cash flow when you consolidate your entire fuel supply process

Wright Express Fuel Advisors is designed for large self-fueled fleets, petroleum distributors and fuel retailers. Powered by TelaPoint, it provides professional fuel management services with one centralized program for tighter, more effective management, lowering overall fuel costs, improving administrative efficiencies and increasing cash flow.

Professional Fuel Management Services to administer your on-site fuel

With Fuel Advisors, our experienced team of professionals will manage your inventory levels, determine the best time to order, the lowest cost source and dispatch the order for delivery. After delivery, we will reconcile the invoice to the original order, reducing administrative expense. Fuel Advisors acts as a watch dog, constantly monitoring and reporting on your fuel supply chain.

Key benefits at a glance

- Lower overall fuel spend for on-site bulk fuel
- Lower transportation costs
- Reduce the number of PO's issued and lower administrative costs
- Improved tracking and reporting
- Lower carrying costs by optimizing overall inventory levels
- Better Compliance tracking and reporting
- Supply contract negotiation and management
